Welcome Message:

Hi there,

You have been invited to do a project test about a calorie counting method to weight loss.

Before we begin I'd like to thank you for spending a few moments of your day to help me with my new app. And I would greatly appreciate your input about the user experience of the current prototype. Please note that as it is a prototype, not all the actions of the interface are clickable.

Landing Page URL :

 Please find it [here](#).

Chosen tasks for the test:

- Create an account /Login with your account
- Set up goal state for the first time after registration.
- Diary page to enter food ingredients in the database.
- Search for food in the database page.
- Set a goal page.
- Observe progress.

You are good to go

Guided Questions:

1- What do you think about color combination? Is it visually pleasing?
2- What do you think about the size and shape of buttons?
3- How easy can you interact in the app?
4- What is one thing to improve the app?
5- What is one thing you like the most about the app?
6- What is one thing you don't like about the app?

Test Insights:

Details from Recordings:

Participant 1(Fred)

- The user could understand the app easily.
- Setting a goal after registration is a good call in the beginning.
- The iPhone frame in the prototype is not cool when you are watching the prototype by mobile device.

Participant 2 (Paris)

- The combination of color is nice.
- the logo in the landing page failed to load instantly.

Participant 3 (Mehdi)
- The design is so neat and the color contrast is well presented.
- The registration and login is straightforward and good to have a sign in with social media option in the app.
- Able to complete the test smoothly.

Participant 4 (Neda)

- The color combination looked pleasing.
- The homepage is somehow the same as the menu, it is better to give extra information. However the design is neat and nice.

Participant 5 (Farnoush)

- Observing progress is a good option.
- Able to complete the test.
- Wished the setting goal is clickable

Participant 6 (Mary)

- The interface looks amazing.
- The database page is a little confusing.
- The bottom navbar is so cool.
- Completed the test easily.

Participant 7 (Nastran)
- The graphic of the page is clean and nice.
- Some buttons are not working.

- The registration part is easy to get done.
- Instructions are easy to follow.

Participant 8 (Samaneh)
- The diary page is so well presented and clear.
- The color of the interface is nice.
- The home page doesn't give any information, I spend time on it to find any other information.

Participant 9 (Mahsa)
- I like the design and the icons selected very well, All have meaning.
- Like the color.
- Like the social media sign in.
- Didn't like the homepage.

Participant 10 (Mahnaz)

- The interface is nice and so user friendly.
- Confused in the homepage.
- The diary and database is related to each other and well presented.
- The app is neat, and I like to spend time on it.

Things have done well:

- Color combination, icons, buttons shape are good.
- The app sounds neat to users and they like the design.
- The registration with social media option seems easy to them.
- Most of the features are understandable.
- Cool to have set up a goal in the first place.

Things need to have improvement:

- The iphone frame is disturbing on mobile devices.
- The homepage needs extra information.
- Search for food in the database page needs more improvement, It needs to be clear enough for everyone.

Final Message:

You have completed the test! Thank you so much for participating.
